

# Overview of Thai Healing Massage Academy's online video training courses

Hi, I am Shama Kern, founder and director of Thai Healing Massage Academy.

Thanks for visiting. Let me give you a quick personal tour so that you can easily find what you are looking for.

First, we are not selling DVDs which you buy and then it's up to you what to do with them.

We are a real **online training academy** where you **learn gradually** and with full **instructor support**. We have an:

- interactive student community
- a certification program
- CEUs
- The best support you have ever seen

It's a real learning environment which you can participate in if you choose to.

## Where should you start?

We have 20 courses, so where do you start?

If you are new to Thai Massage or you know very little about it, you can start with our **free introductory course**.

That's not designed to really learn Thai Massage, but it's an excellent introduction and you will get a feeling for how I am teaching.

# The Foundation

If you want the actual training, the best place to start is our **Complete Thai Massage course**.

That's a very large and very professional course and it's the foundation for a successful Thai Massage career.

Even if you have had some Thai Massage training, this course will give you lots of additional skills and will take your Thai Massage to a whole new level.

## Companion Courses

We have several courses which are great additions to Thai Massage. They can also be used by themselves or with other massage systems.

These courses are designed to improve and refine your Thai Massage (or any massage) skills. They will preserve your health, take stress off your hands, teach you how to use your body more effectively, and show you how to improve the quality of your touch.

If you don't want to go the professional route with Thai Massage, or if you want to mainly work on your family and friends, then we have the perfect course for that.

It's **Massage For Friends And Family**. Basically it's a simplified version of Thai Massage which you can learn easily.

But just because it is more simple doesn't mean it is less effective. Massage can be a wonderful tool to improve your relationships. My wife and I are using it a lot on each other and it has always been an important and enjoyable part of our relationship.

Please note: All our training courses are taught on a floor mat which is how it's done here in Thailand traditionally.

But you can adapt most techniques to table work as well, and many of our students are doing that.

All the courses on this web page have links to other pages with a more detailed description. If you still have questions about a course, feel free to send me an email at [shama@thaihealingmassage.com](mailto:shama@thaihealingmassage.com) or contact me on skype at shama108.

If you decide to invest in one of our courses, you will definitely learn a lot and have a great experience. However if for some reason a course is just not right for you, remember you have zero risk. If it's not right for you we will give you your money back, no problem. We only want happy and satisfied students around here.

So scroll down the page and choose the right course for you.

I will see you on the other side.
